Study Sheet: What Is Realism?

List as many characteristics as you can to describe each style.

Give an example of a work that you think fits into each category and explain why.

Your example doesn't need to be a painting; you can choose something you've seen in your life, or sketch your own example in the box.

List the social functions of each artistic style. What was its purpose? Why did people work in this style? Think about historical events and ideas related to this style.

How did widespread use of photography affect Realism?
