

Imagination at Work

Complete the drawings

Examples of some completed pages.

I.) Example

K.) Example

Directions:

1. Pick any **six** squares you see above (A - L). Copy the lines you see in each square into a page in your visual journal. Use a separate and complete page for each letter. Write the letter you picked at the top of each sketchbook page.

What do you think is hidden within each square?

2. Use existing shapes and lines to incorporate them into a realistic and recognizable object/setting/ place/ person.

3. Start with light sketching lines.

4. Use colored pencils or a shading pencil to add depth (3-D) to the drawings.

5. Be creative and don't copy the example.
